# NGS News

## NGS Webinar Series Certificates of Attendance

NGS hosts a monthly webinar series to highlight geodesy and coastal mapping programs, products, and research. There are now two ways to earn a certificate of attendance for fully viewing an NGS webinar.

1. Attend the webinar 'live' for the entirety of the broadcast. Those who do so will receive a certificate via email from NGS. [View upcoming webinars.](#)
2. **\*NEW\*** NGS, in partnership with the [COMET MetEd Program](#), has developed a tool through which you can earn a certificate by viewing recordings of past webinars. First, create a [free MetEd user account](#). Then, visit [MetEd](#) to access nearly all of the [previous webinars](#) NGS has hosted. Once you watch the entirety of a webinar, you can download a Certificate of Attendance..

If you have questions about receiving certificates through the processes above, please email [NGS.Webinar@noaa.gov](mailto:NGS.Webinar@noaa.gov).

---

## What Recorded Webinars are available?

This webinar series is a continuation of National Height Modernization Program's monthly presentations hosted from January 2011 through March 2015. It also includes recorded events hosted through the NGS training program. In all, there are currently over [90 recorded webinars](#) available online.

We encourage you to use the **search function** on the [main MetEd web page](#). Some of the most frequent topics are listed below:

- 14 are focused on OPUS
- 14 relate to geoids, gravity or vertical datums
- 10 are focused on GPS on Bench Marks
- 9 are focused on NSRS modernization
- 7 are on State Plane Coordinates
