

NOTICE: NGS releases new data visualization and data submission tools
NOAA's National Ocean Service sent this bulletin at 05/18/2020 03:15 PM EDT

**NGS Releases new GPSONBM Progress
Dashboard and OPUS Share Visualization
Tools**

Explore GPSONBM campaign progress and shared OPUS solutions with these new NGS tools

**Progress Dashboard for the
GPS on Bench Marks 2022 Transformation Tool Campaign**

NGS has set an ambitious goal to collect [GPS on Bench Marks](#) data at 10-km spacing across the country to improve the transformation tools that will be developed for the modernized National Spatial Reference System. [This dashboard](#) allows users to track our progress toward the GPSONBM campaign goals.

**The OPUS Share Monthly Map, and the OPUS Shared Solutions
Dashboard**

The [OPUS Share Monthly Map](#) allows users to see shared OPUS solutions on an interactive map, broken down by the month they were shared.

The [OPUS Shared Solutions Dashboard](#) allows users to explore the 30,000+ shared OPUS solutions submitted since sharing began in 2007 and learn about the organizations contributing them.

Let us know what you think about our new maps and dashboards:
